**Bed Bug Detection Dog**

Bed bug detection dogs. Detection dogs are often specially trained by handlers to identify the scent of bed bugs. With the increased focus on green pest management and integrated pest management, as well as the increase in global travel and shared living accommodations, bed bugs have become more prevalent.

**Mold Detection Dog**

Trained with ScentLogix-K9 for basic mold detection. Scientifically Formulated \*Imprint Non-Hazardous \*\*TrainNon-Spillable \*\*\*Certify - Unparalleled Effectiveness Patent Pending

**HR Detection Dogs**

Human remains detection (HRD) or cadaver dogs are used to locate the remains of deceased victims. Depending on the nature of the search, these dogs may work off-lead (e.g., to search a large area for buried remains) or on-lead (to recover clues from a crime scene).

**HR Water**

Human remains detection on water teaches the dog to air scent from a boat and pinpoint where remains could be under the water.

**Disaster Live**

Tracking dogs use their naturally strong sense of smell and follow the trail or scent of a person on the ground.

**Disaster Live Water**

Dogs use their sense of smell to air scent live humans from a boat.

**Personal Protection**

Dogs trained in obedience and bit work to respond to any threat toward the handler or on command.

**Crowd Control**

Dogs trained in obedience and to push large crowds of people using their bodies and intimidation.

**Drug Detection Dog Teams**

Dogs trained to find drugs.

**Explosives Detection Dog Teams**

Dogs trained to find explosive devices including IUD's and homemade devices.

**\*\*All dogs must have copy of vaccination records including Rabies & Bordetella**
